AbujaCar Properties & Automobile Ltd. was founded in the year 2014. The company is an automobile dealership which basically imports both brand new and foreign used cars across all the brands. We offer other services such as car rebrand and upgrade.

Mr. Sadiq Saminu Geidam

CEO, AbujaCar
Properties &
Automobile Limited

We started with about 3 to 5 workers and in the year 2018, we created another branch for car rental services as a sub section of Abujacar Properties and Automobile Limited.

After a few years, we successfully built a client base across all the states in Nigeria and coincidentally, we started to receive sub-projects from individuals, corporate organizations, government agencies as well as family and friends. Basically, through these recommendations we have had several projects executed successfully and increased our staff strength to 8 workers.

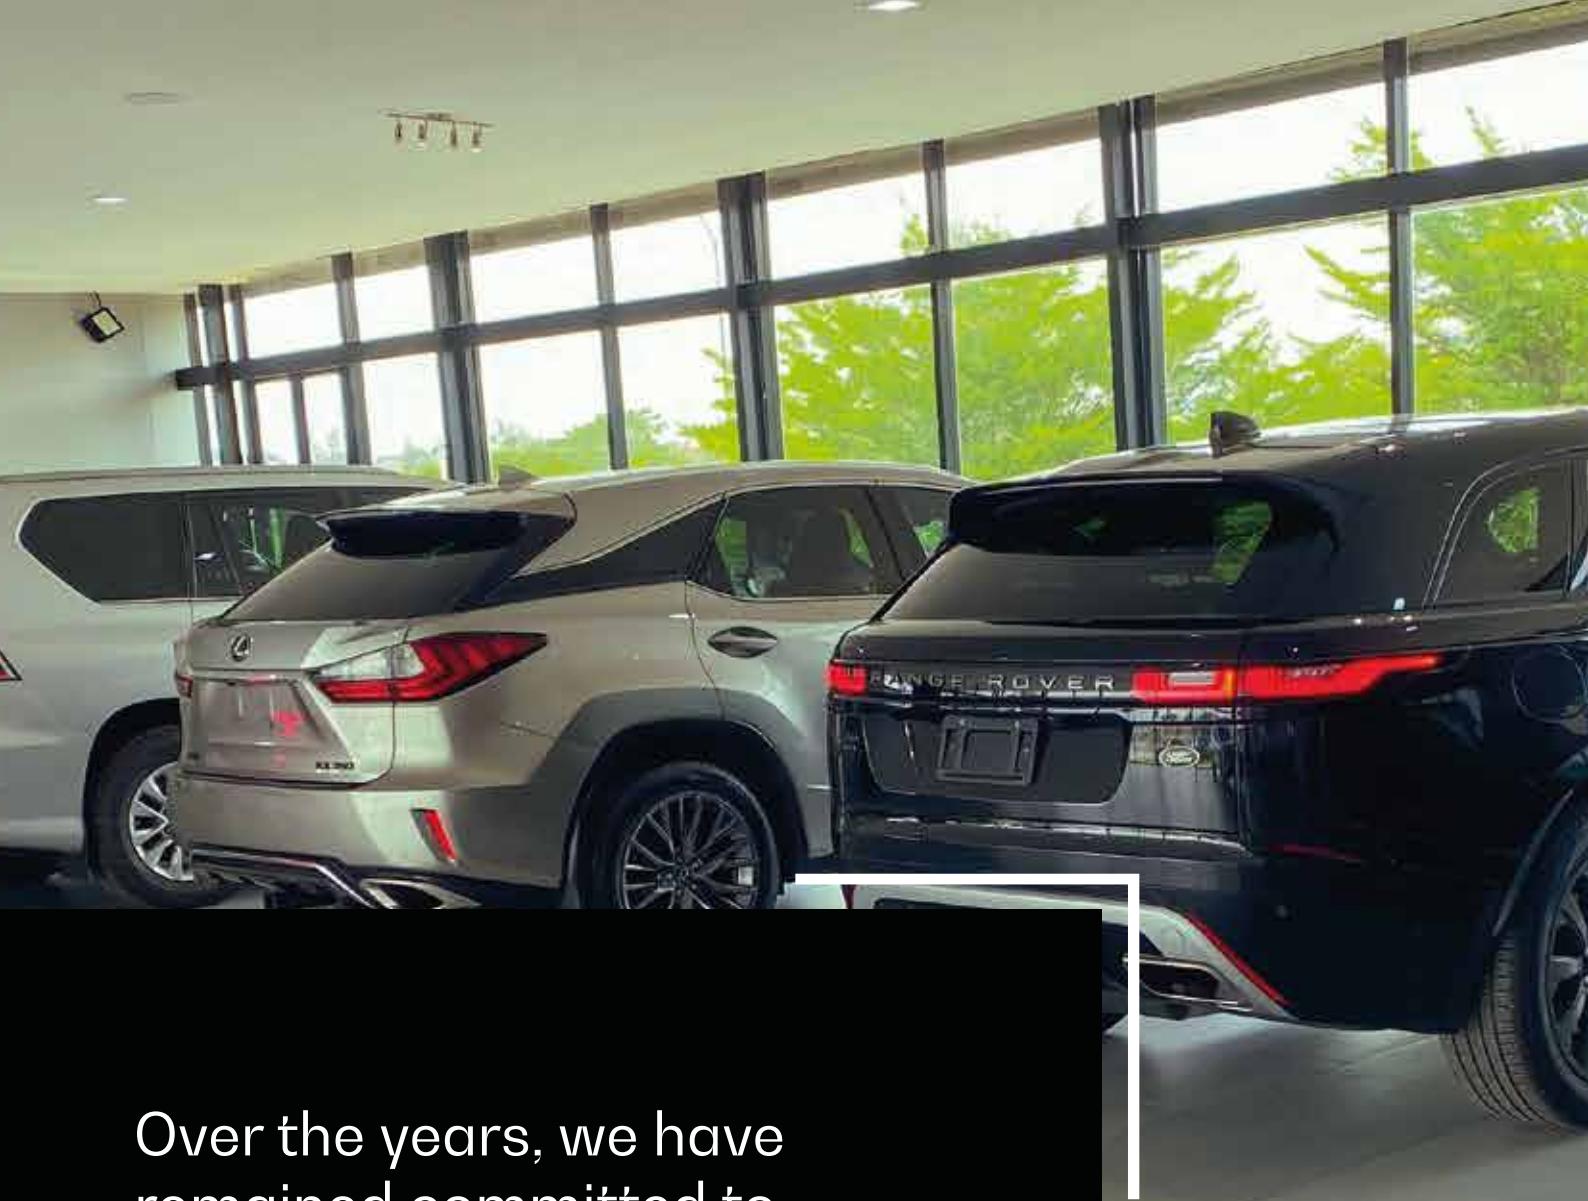

In 2019, our high work rate, effectiveness and efficiency made us become one of the best car dealership and rental service providers in Abuja and Nigeria at large and pursuant to that, we received invites for partnerships by other car dealerships to assist and carry out projects together in the following years.

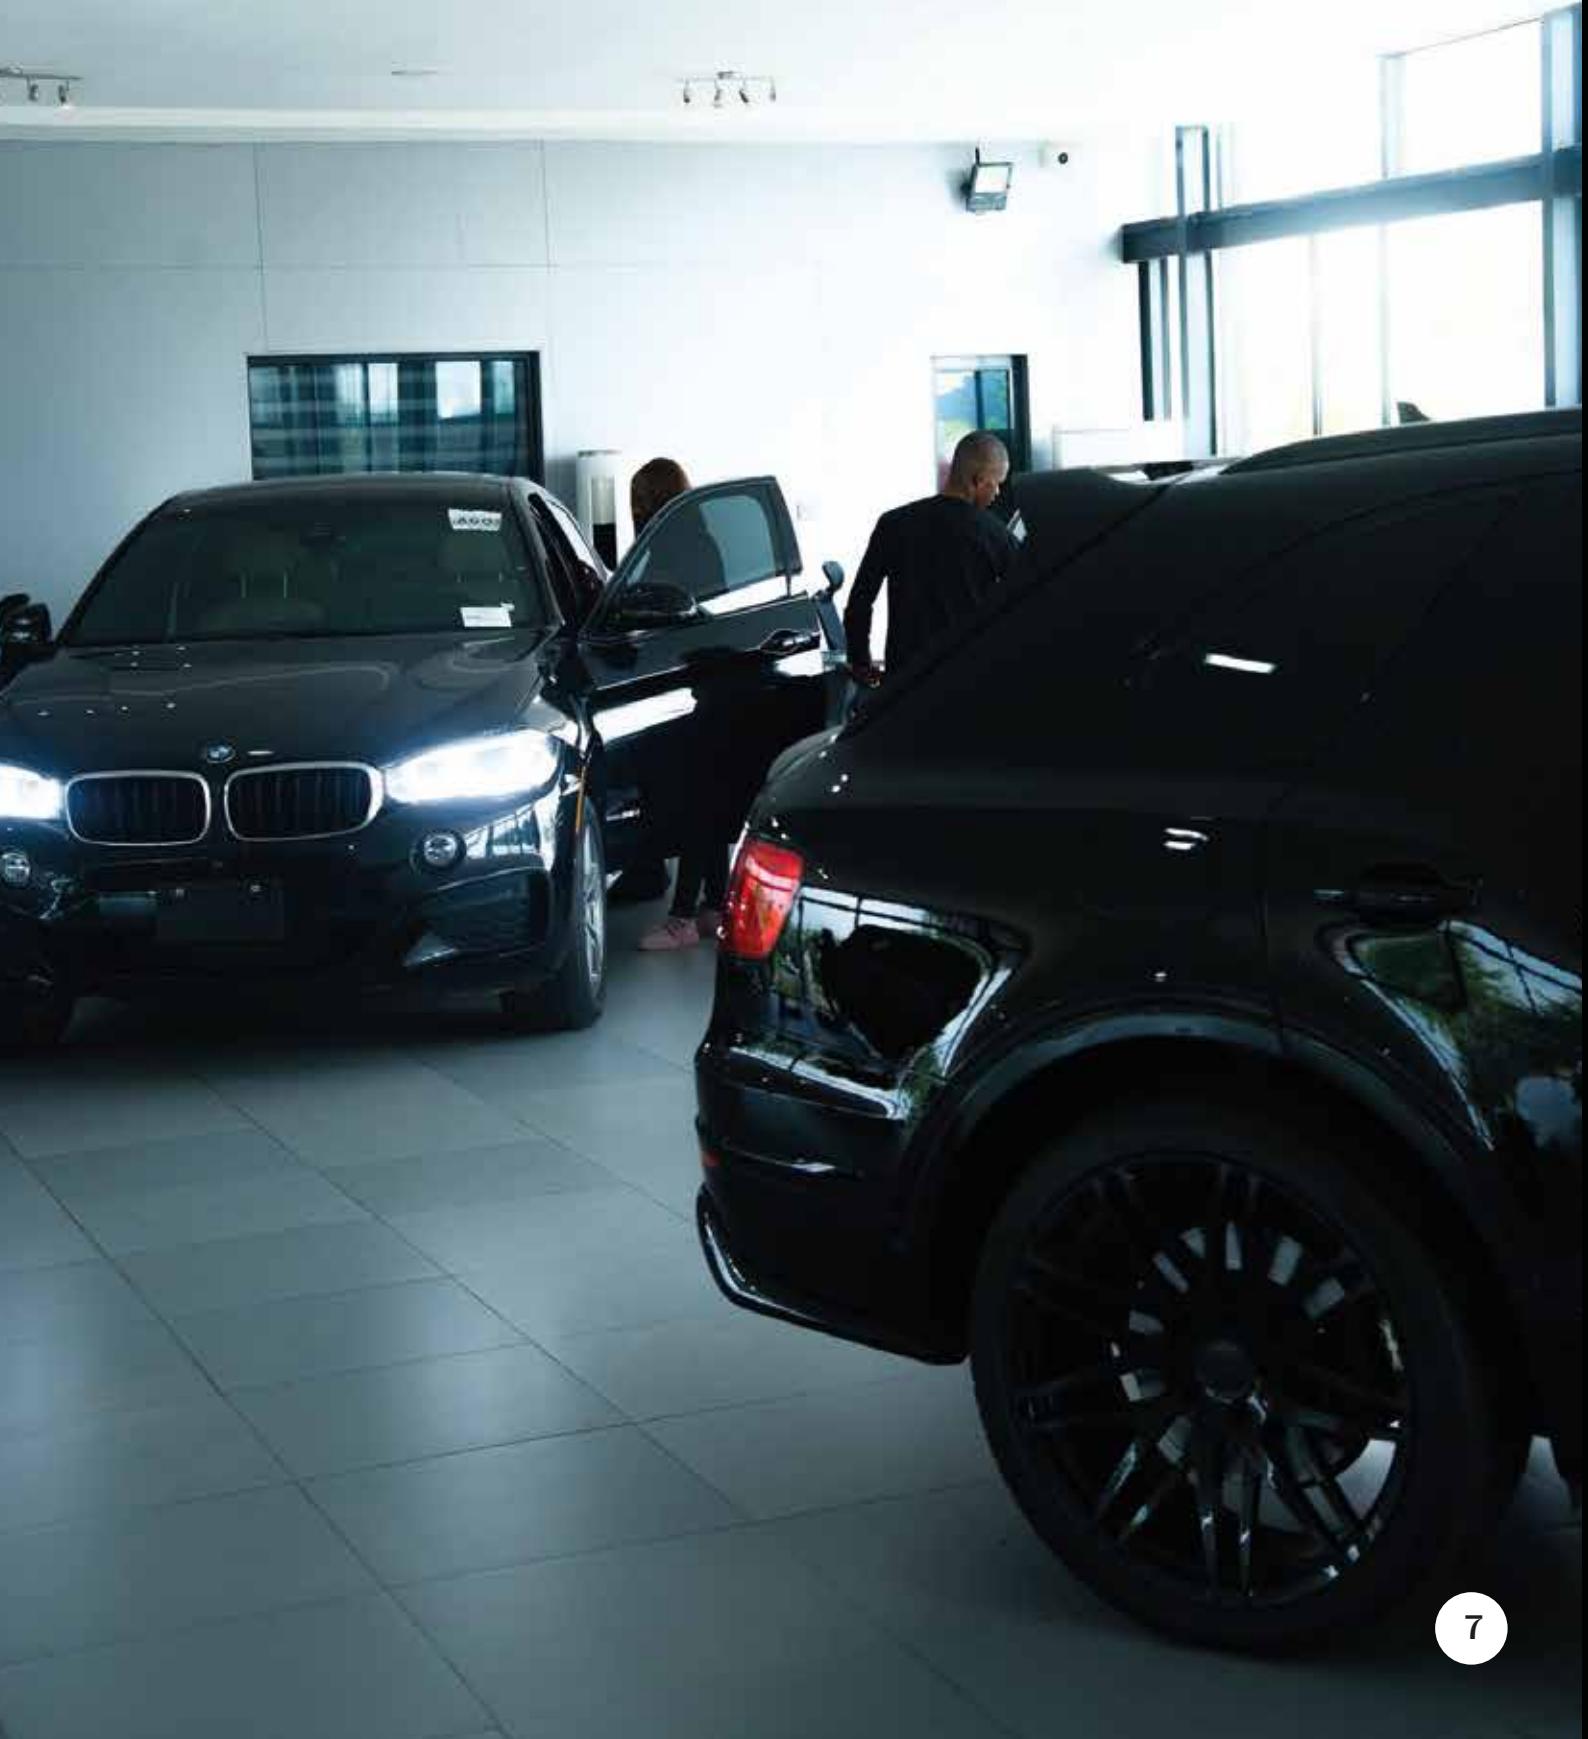

...we finally developed the much needed capacity

After great efforts and obvious results, we finally developed the much needed capacity to get projects directly from corporate organizations and government agencies by using our own company's name. We really appreciate the opportunity to partner with other car dealerships in the industry, this collaboration has enabled our company to grow rapidly. In 2020, we continuously served our customers in Abuja and other states in Nigeria by offering premium and quality service for individual and corporate mobility.
